Thomas Curtis, road work	61 20
F. M. Davis, road commission-er's fees	61 20

Attest: W. B. DAVIS, Clerk County Court.

Holt County Sentinel.

OFFICIAL PAPER OF HOLT COUNTY.
FRIDAY, MAY 28, 1899.

THE PROSPECT.

Perhaps, never in the history of Holt county has prosperity so abounded as at the present time. Our orchards—bearing under the weight of fruit, our vineyards laden with grapes, our wheat fields dressed in waving green, and our farmers are just now finishing the planting of the most extensive crop of corn ever put out in Holt county. Urged on and encouraged by the heretofore high prices of grain and stock, our farmers are making a master effort to realize, the coming fall, a handsome crop of greenbacks from their summer's toil; and in view of this, are planting every possible acre of ground, and paying particular attention to every little pig, well knowing the source of their receipts heretofore. Our merchants, mechanics and professional men, are prospering also. They can not help it when everything around them is flourishing so. Although our financial system abroad is in a very nervous condition at the present, and trembling at every rumor, running gold up one day and down the next, yet here it has no effect, and we move on as though every thing was calm—as though the Cuban war was not going on—as though the Alabama claims were not exciting the English and American Governments. This is all well enough. As long as our farmers bring into market the amount of grain and hogs they have been bringing in for the last three or four years, so long will they be in easy circumstances, and scarcity of funds will not be known among them. When they are so prosperous, the balance of us need not fear—we will not starve.

FROM CUBA.

HAVANA, May 23.—The government has received no official dispatches announcing the landing of filibusters on the island. Information, via Key West, has been received here of the landing of 300 filibusters near Gibraltar. There was an obstinate fight with the troops on shore, in which the Spanish captured two cannon and lost 82 men, and the insurgents lost 80 killed and wounded. Result unknown.

Fighting is reported near Trinidad and Cienfuegos with heavy losses and appalling atrocities on both sides. Remedies in a state of anarchy. The insurgents are ubiquitous in that jurisdiction, and small bands of Spaniards and Cubans are engaged in mutual murder and robbery.

Salvage had again bombarded Aux Coyas, but met with no success.

The news from Jamaica to the 14th inst. The steamer Mount Vernon had arrived there with a cargo of war material for the Haytian revolutionists.

Accident.

The Atchison county Journal says: A most distressing accident occurred in the family of Adam Silger, living north of Phelps in the Missouri Bottom, on Friday, 14th inst. One of his children, a little fellow just beginning to run alone, by some mishap fell into a kettle of boiling soap, producing such injuries as to cause death within a few hours.

IS IT TRUE?

Mr. Editor: You ask in your issue of last week if it is true that the woman, Dorcas Adams, died of want. I suppose there is no doubt of it; and that is not the worst of it. There are several other families in the county that have been saved from death, by actual starvation, only by the contributions of individuals who, by chance, have ascertained their condition. Just think of it, mothers and fathers, here in Holt county little girls and boys have actually suffered for want of bread. It is a shame and disgrace to those in authority, and who have the power and means in their hands to remedy this suffering, to thus continue to manifest no feeling, or render the aid they should. For years they have been solicited and petitioned to provide a way to support the county poor, when land, suitable for the purpose, could have been got at five dollars per acre. It was pointed out to them that in less than five years they would probably have to give twenty-five dollars per acre for the same land, and that ere long they must purchase a farm for a poor house location. But they have preferred to go on in their thriftless, idle way, giving away annually over a thousand dollars capital; sinking so much money every year, instead of investing at once a small sum of money, the use of which would support the poor in comfort. They prefer to waste the sum of a thousand dollars in gifts, and in such a way that the poor do not get the benefit of one-fourth of it, rather than invest five thousand dollars in such a way, that in five years it would be worth twenty-five thousand dollars to the county. They prefer to annually waste the interest on ten thousand dollars.

The course taken by the county court of Holt county will bankrupt the county in less than twenty years, because the demand on their charity is constantly increasing, and ere long it will be two thousand dollars per annum. This leak will, in twenty years more, if interest at ten per cent. is calculated and compounded according to law and the amount added to what has been paid out within these few years, amount to something over one hundred thousand dollars. Just think of that! Unless this be stopped, we will, in twenty more years, see the whole surplus capital of our county squandered away. Unless the people awake to a sense of its necessity and urge it upon the men who are neglecting their interests, financial ruin will be the consequence. If these men have not got the nerve and judgment to do their duty, get rid of them, and choose those who have. Let it be done at once, and we will have no more cases of starvation among us. I say nothing about the humanity and decency of doing our duty to the poor. Let every man do it into the ears of our county judges until they can be induced to do their plain duty.

EUROPE.

On last Saturday, Minister Dix bid farewell to Paris, and Minister Washburn presented his papers as successor. Addressing the Emperor, he said he had been authorized to express the hearty wishes of the President of the United States for the happiness and health of his Majesty and the further prosperity of France, and the earnest desire of the Government and people to maintain and cultivate amicable relations with France, and uphold and perpetuate the eternal friendship of the two countries. He trusted that, while guarding the interest confided to him, his residence near the court of his Majesty would contribute to the continuance of the existing friendly relations. The Emperor replied that he was glad to welcome Mr. Washburn as the representative of the United States, and was pleased to receive such assurances of the friendship of a Government with which closest sympathy and amicable feeling had existed uninterruptedly for a hundred years. He heartily concurred in the hope expressed of a continuance of these relations, and was happy to welcome as Minister near his court a gentleman so distinguished in the history of his country.

PRESBYTERIAL.

The latest dispatches from the Old and New School Presbyterian Assemblies now in session in New York City, looks very much like a reunion of these two bodies. The following four points have been submitted as a basis of reunion:

- 1st. The Old and New Testaments are accepted as the rule of Faith.
- 2d. The Westminster Confession and Catechism, slightly modified as far as regards civil law, is regarded as a full and accurate interpretation of Holy Writ.
- 3d. The United Church accepts the Presbyterian form of government.
- 4th. The United Church accepts the Psalms and prescribes its use.

The report was referred to the Standing Committee on reunion.

I. O. O. F.

From the proceedings of the session of the Grand Lodge held at St. Louis, last week, we get the following: The officers elected for the present year were: R. J. S. Wise, of St. Joseph, M. W. Grand Master; Ed. Wilkenson, of St. Louis, R. W. D. G. Master; P. P. Ellis, of New Florence, R. W. Grand Warden; E. M. Sloan, of St. Louis, R. W. Grand Secretary; W. H. Thompson, of St. Louis, R. W. Grand Treasurer; John Doniphan, of Weston, Grand Representative. The report of the Grand Secretary shows the amount paid out for relief to be \$20,373.14. Total income of the assets of the order in the State, \$24,143.51.

Change in Time Tables.

The Time Tables of the Hannibal and St. Joseph and St. Joseph and Council Bluffs Railroads have again been changed, and took effect the 23d inst. An additional passenger train has been put on the Hannibal and St. Joseph road to accommodate the increased travel on that road. Every facility for the accommodation of the traveling public, it seems, is being adopted by our Railroad lines.

OUR CHICAGO LETTER.

CHICAGO, May 21, 1899. From the number of divorces and elopements put down to the credit of Chicago, it is quite natural to suppose we have a large supply of domestic unhappiness. As a sample of the cases announced as occurring in Chicago, I will give a few particulars of one which was recently brought to light. An almost distracted husband arrived here in search of his wife and child. The former had deserted him six years ago, to live with a villain who afterwards deserted her. The detectives found the guilty wife and innocent child—the parents were reconciled and the trio left for their Eastern home.

Until night before last we had enjoyed comparative immunity from fires for several months. A new start was made on that occasion, however, by the total destruction of a large establishment known as the Excelsior Iron Works.

The Board of Commissioners for the Northern Insane Asylum met this week at the Tremont House, and after organizing, received delegations from several towns in reference to the location of the asylum. Some sharp competition will be had over the selection of a site. In the meantime the Commissioners have started on a tour of inspection. In all police organizations there is a spirit of tyranny manifested by the men. This has long been observable in Chicago, but last winter it presented itself in a tangible shape. A huckster driving home one evening, a patrolman ordered him to stop; not obeying, a shot was fired which seriously injured his arm. The policeman was tried in the Recorder's court and sentenced to imprisonment for one year, with a fine of twenty-five dollars.

A new scheme for a grand trans-continental route is being proposed. A delegation from Portland, Maine, was before the Board of Trade yesterday for the purpose of presenting the scheme. The object is to attract the travel from Europe to China. The plan is to connect New Foundland with Portland by means of cars and steamers, and Portland with Rome, New York, by rail, and thereby complete the connection by the present routes, to this city. It is claimed that this would reduce the ocean time from Ireland to four days.

Considering the ups and downs of American life, it is generally considered imprudent for a man not to make provisions for those depending upon him. Granting the necessity of such a provision, no one can deny the desirability of life insurance as a means. As I am in a position to be posted on life companies, I wish to call attention to the United Security of Pennsylvania. This Co. was organized with a cash capital of \$1,000,000 by some of the best and most wealthy men of Philadelphia. George H. Stuart, so prominently connected with the Christian Commission during the war, is its president. Its operations in the West are under the control of Geo. C. Smith & Bro., Bankers, of this city. Its charter is perpetual. It is perfectly stable, and offers greater inducements in all the most popular plans of insurance. Active agents are desired for western cities. Applications to be addressed to John M. Wallace, Manager, 82 LaSalle Street.

MISSOURI ITEMS.

- Richmond, the county seat of Ray, has a population of some 1,600.
- The Baptist Association of Lexington, Mo., have sold the Old Town Seminary to J. L. Thomas and J. W. Reed, for \$5,500.
- An Association of the Ministers of Chillicothe was organized last Monday week in the study of Rev. S. Sawyer, to meet every Monday morning on their own adjournment at 10 o'clock.
- The Columbia Statesman announces that on the 1st of July it will be commenced as a daily.
- A horse fair is to be held at Sedalia, on the 3d of June.
- On the 11th inst., Mr. Owen, while plowing near Lexington with a single horse, was killed by getting entangled with the trace chains, and the horse running away and dragging him after him.
- A man named Griffith was hung by a vigilance committee, in Jasper county, some nights ago. He was charged with stealing cattle.
- J. F. Joy, the great Railroad King, has decided on St. Joseph as his future headquarters.
- Petitions are in circulation in Linn County, praying the County Court at the next general election to submit to the voters of Linn county a proposition to remove the county seat from Linn to Brookfield.
- The County Court of Linn, on the 3d instant, ordered a levy of \$10,000 to build a court-house.

WASHINGTON NEWS.

The arrival in England, of Mr. Motley, our Minister, and his reception by the English people, as well as his success in arranging our difficulties with that Government in regard to the Alabama claims, is the topic of greatest interest now, and is looked for with great anxiety by the Government officials and people generally. Although it is stated that his instructions are more of a general than special character, and does not look like any speedy action on his part. Since the sailing of Mr. Motley for England, Gen. Butler has urged the administration to adopt very decided measures in regard to the Alabama claims, and suggests a definite demand for settlement, and if not complied with at the end of a reasonable time, non-intercourse should be proclaimed. A special telegram from New Orleans states that orders have been received in that city from Washington, directing that the iron clads now there be put in condition for immediate active service, and further directing that the requisite number of workmen be kept employed both day and night to this end. Considerable excitement exists over the order, and rumors of difficulties with the Spanish authorities of Cuba were in circulation.

News has been received direct from Cespedes, confirming fully the defeat of the Spanish forces in attempting to open a railroad from Neuvas to Puerto Principe, which was reported a few days ago. All the baggage, provisions and ammunition of the Spaniards was captured. The loss of the Cubans is stated at seven hundred, and that of the Spaniards at 1000.

THE "RIVERSIDE."

This favorite Magazine for the Young announces the following as among the noticeable features of the new volume: 1. New Stories, contributed especially to the Riverside in advance of the publication in Denmark. By Hans Christian Andersen. 2. A Serial, "White and Red," of thrilling adventure and humorous scenes amongst our Northwest Indians. By Mrs. Weeks, author of "Annie." 3. Stories from Spenser and Caucher. By the author of the popular "Stories from Shakespeare." 4. Papers on Invention and Art: how statues are made, how telegraphs are worked, how a boy can make photographs, etc., etc. 5. Hunting in South Africa; Streets of Constantinople; American Cities—New Orleans, Baltimore, Philadelphia, New York, Boston, etc., etc. 6. Life on the Prairie, and Scenes from American History. 7. Exquisite Fairy Pictures and Poems. 8. Beautiful tales by popular writers. 9. Illustrations of the Bible, History, Natural History, Biography, Curiousities, etc. 9. Fun and Frolic in all sorts of forms. The list of writers for the Riverside includes the names of Jacob Abbott, Hans Christian Andersen, Miss S. A. Brock, Alice and Phoebe Cary, Nellie Eyster, F. R. Goulding, Paul H. Hayes, Henry E. Scudder, Porter Croyon, Viewmont, Moustache, author of "Sunny Six Birthdays," author of "Seven Little Sisters," etc. A full-page Frontispiece and a number of large illustrations in every number. A brilliant picture in colors, "The Quack Doctor," by the celebrated animal and humorous painter, H. L. Stephens, will be sent by the Publishers, free of expense, to any one who will send direct to them the price of subscription, \$2.50. Terms of subscription: \$2.50 a year in advance; three copies, \$6.50; five copies, \$10.00; ten copies, \$20.00 and an extra copy gratis. Price to clergymen and teachers \$2.00 per year. Single copies, 25 cents. HURD & Houghton, Publishers, 459 Broome Street, New York.

SPECIAL NOTICES.

THE KIDNEYS.

THE kidneys are two in number, situated at the upper part of the loins, surrounded by fat, and consisting of three parts, viz: the anterior, the interior, and the posterior. The anterior part is the largest, and is the most important. It is the seat of the urine, and is the source of the blood. The interior part is the seat of the urine, and is the source of the blood. The posterior part is the seat of the urine, and is the source of the blood.

The bladder is composed of various coverings or tissues, divided into parts, viz: the upper, the lower, the middle, and the lower. The upper part is the seat of the urine, and is the source of the blood. The lower part is the seat of the urine, and is the source of the blood. The middle part is the seat of the urine, and is the source of the blood. The lower part is the seat of the urine, and is the source of the blood.

Without a Good Digestion. All other temporal blessings are comparatively worthless. The dyspeptic millionaire who has tried all the potions of the medical profession in vain, and believes his complaint to be incurable, would give half his fortune to be freed from the horrors of indigestion, and thus enabled to enjoy the other half. Of course he would.

Perhaps HOSTETTER'S STOMACH BITTERS has been recommended to such a number. Possibly he has turned from the friend who made the suggestion with a sneer, intimating that he has no faith in any "patent medicine." If this has been the case, he may be sure that he is in a very bad way. He is a victim of indigestion, and is in a very bad way. He is a victim of indigestion, and is in a very bad way. He is a victim of indigestion, and is in a very bad way.

With its gloomy attendants, low spirits, depression, involuntary emissions, loss of semen, as well as mental weakness, it is a golden mean between the two, which men and women who are afflicted with common sense adopt and profit by. These are the cases that patronize and recommend HOSTETTER'S BITTERS. Why do they approve of it? Simply because they have not been too much deceived by the many "patent medicines" which are sold in every city. Where is the man who has been so deceived? He is the man who has been so deceived. He is the man who has been so deceived. He is the man who has been so deceived.

NEW ADVERTISEMENTS.

SOMETHING NEW!

You can now get what you long have needed!

Fruit Trees! Fruit Trees! A. L. grown at home and grafted from bearing trees, and of such varieties as have proven hardy, early, and good bearers, at the Holt County Nursery, northwest corner of Oregon, Holt county, Missouri.
